

I protest Sinclair Broadcasting's plan to air programming that presents an unbalanced bias against one presidential candidate. Allowing this would give a single wealthy entity unjust power to influence the result of the election.

Our Constitution guarantees Sinclair Broadcasting freedom of speech, but only so far as it does not infringe on the freedom of others. The public airwaves are a limited resource, and are reserved for use by all. Sinclair Broadcasting's appropriation of this resource for its own purpose and use is wholly unjust.

If I decided that the Mississippi River ought to be orange as it flows past Saint Louis, I could go buy a few million gallons of food coloring and dump it in, up here in Minneapolis. That would be illegal, as I do not own the Mississippi River.

Sinclair Broadcasting does not own the frequencies on which it broadcasts its programming, and it should not be allowed to pollute them with propoganda.

Thank you in advance for protecting our airwaves.
